A MYSTERY CLEARING.

The Murderer of Zora Burns Said to be Caught.

Great Excitement Prevailing at Lincoin The Mysterious Whedon Arrested in Iowa-What He Says-Alleged Confession of the Alleged Assassin Who Says He Was Hired to Do The Deed.

LINCOLN, ILL, Oct. 29.-LATER-The excitement here has been luteusified by interdispatches. These come from Hampton, not Honston, Iowa, and are to the effect that Wheedon has not himself confessed the crime, but that through his information the guilty man has been identified, arrested, and induced to make a clean breast of his counection with the affair. He admits killing the girls, it is asserted, and nomits that he did the deed deliberately and he cold blood, having no personal motive for butchering the unfortunate girl, but doing so slipply because he was hired for the jo; and earned his money as per agreement Neither ho assessin's name, nor the nam of the person who, he alleges, hired him to commit the crime are yet reported. excitement in town is now so great that i would not be safe for either one or the other to be in the vicinity and identified. course the statement that the murder was the work of a hired assassin turns the at tention of those who are suspicious of Caj penter towards him as the one who paid for the butchery, he having, they claim, bot' the money and the motive. On the other hand, those who are friendly to Carpenter, and public opinion is about evenly divided for nm. against him, claim that the meagre partic ulars, so far as they have been learned tend to relieve him of the weight of su picious circumstances ueder which he is. heretofore labored. VALUE OF AN EYE.

The Price Fixed at Five Thousand Dollars.

PHILADELPHIA, Oct. 29.—The fury in the case of Loring Sparks against the Citizens' Coach Company, rendered a verdict of \$5,000 for the plaintiff. Spurks is a young man, and at the time of the accident upon which suit was instituted, was employed as a clerk in a dry goods store. For some time he had been a potron of the coach company, which runs a line of omnibuses through various streets of Camden. Finding the coach he desired to enter one evening crowded he took a seat on the briver's box, situated in front of the vehicle. The latter in applying his whip to the horses struck Sparks in the eye with the lash. In the course of a few weeks a cataract formed over the pupil of the injured eye, completely destroying the sight. An action for the recovery of \$10,000 damages against the company was brought by Sparks, with the resalt stated. It was admitted by the detendants that passengers were permitted to ride on the driver's seat when the coach was crowded, and that fares were collected from passengers in this position without objection.

Attempted Suicide.

Toledo, O., Oct. 29.—Emaunei Lecknow, aged seventy, attempted to klil himself at Napoleon by shooting himself through the head. The wound, however, it is thought, will not prove fatal, as he is conscious, and the ball only passed through the skin and then off the skull. Lecknow has just got out of the poor house, and his sons refused to give him a home or care for him. He therenpon declared he would put an end to himself rather than go back again to the poor house.

Postoffice Robbed.

OTTAWA, Ill., Oct. 29.—The postoffice at Freedom, in this county, nine miles north of here, was entered by burglars. The safe was blown open and \$700 taken.

Among the causes which led to the suspension of the New York and Liverpool service of the Anchor Line are said to be the strong opposition of the older lines in that trade, the depression of freights and the falling off of the passenger truffle toward the end of the touring season. As the line from Liverpool was an experimental one, it is not likely to be resumed.

The laying of a new cable across the narrows in New York Bay was successfully necomplished Sunday afternoon, complet-ing the system of twenty-one wires of the Bultimore and Ohlo Telegraph Company between New York and Baitimore.

A BOY TRAIN WRECKER.

He Smashed Trains in Order "to See the Cars Jump."

LANCASTER, Pa., Oct. 29.—The trial of Jacob Ganaway, a youth about fourteen years of age, has just closed here. He was charged with wrecking a train on the Reading & Columbia Road, which caused the death of George M. Hain, Master Mechanic of the road, lu May last. Ganaway was the most indifferent person in the court room during the trial, evidently not realizing the extent of his crime. He wre ked the train by placing a large heavy plank upon the track, and then went on a short distance away to see "how the cars would jump," as he remarked when arrested. The train was running about fifteen miles ar hour when the eugine struck the plank, throwing it down a steep embankment, turning it over on its side and crushing Mr. Hain under the fire box and literally roasting him alive. The fireman and engineer received severe but not fatal lujuries saving themselves by jump-There was considerable trouble only In selecting a jury. The de fense was that the boy was weak minded and not responsible for his crime. The case was given to the jury, who, after one and a half hours, returned a verdict of iguilty of involuntary manslaughter, and recommending Ganaway to the mercy of the court. Sentence was deferred. Probably an upplication will be made for a new

A FATAL BLOW.

One "Sing" With the Bare Fist Kills a Blacksmith.

GRAND RAPIDS, Mich., Oct. 29.—At Lowell in this county, Wm. Shanley, a dissipated blacksmith, accosted Charles Hodges, clerk at Train's hotel in that village, and renewed a quarrel of the night before. He finally became so abusive that Hodges struck him a terribie blow, felling him to the earth. The man lay in a comatose condition, which was thought to be a drunken stupor, for nearly-five hours, when he was removed to his home, where he died, without having recovered consciousness. The post mortem shows that death was eaused by the breaking of a blood-vessel neur the base of the brain. The physicians think that death may have been caused by dissipation rather than by the blow. The Coroner held an inquest this afternoon, and n verdict was reme real that the deceased came to his death at the rupture of a blood-vessel from causes to the jury unknown. Hodges was arrested for assault and battery. He is a much-esteemed young mun, and public sympathy is on his side.

FOUL PLAY.

Mysterious Death of Lizzie Holmes, of Grand Rapids.

GRAND RAPIDS, Mich., Oct. 20.-The coroners's jury investigating the death of Lizzie Holmes, who was found dead in bed here have found circumstances which point strongly to the coucinsion that it was a case of murder instead of suicide. The theory is that some person accompanied her to her rooms on Sunday night, and murdered her for the purpose of robbery. It is known that she had about \$130 a day or two before her death, which is now missing, with other valuables. A man to whom she is sold to have been engaged to be married, and who had formed the subject of frequent quarrels with other men, has disappeared. leaving no ciew as to his whereabouts. The remains of the woman will probably be exhumed for chemical examination, to ascertuin if death was enused by poison. The 'oroner's inquest is still in progress, and ic verdlet will not be reached for some days.

Austin, of Jersey City, whose arrest on a charge of abandonment led to the disclosure of his numerous intimacies with young girls throughout New Jersey and New York. The co-respondent will be Miss Mills, granddaughter of Cornelius Mills and a member of one Jersey's City's wealthiest familles, with whom Austin was stopping when arrested at a hotel lu Red Bank, N. The Object of His Visit to America as Expressed By Himself-He Will

New York, Oct. 29.—The Rev. Chariet Loysou, Fere Hyacinthe, arrived here Sat urduy from Liverpool in the steamer Alaska. He was met at the wharf by the Rev. Henry M. Field, editor of the New York Evangelitt, and the greeting between them was very cordial. There was no demonstration and no one but Mr. Field was present to welcome the distinguished polemic which was in marked contrast with the elaborate reception extended to him on his former visit to this country, soon after his rupture with the Catholic Church. He seemed to feel the change keenly. To a reporter he said: "I expected that my wife would meet me here, but Mr. Field informs me that she is ill in Washington. A SCOUNDRELLY DEED.

ticiting a Lady's Money and Sending Her to the Poor House,

NEW YORK, Oct. 29.-John Reilly und Mrs. Margaret Nash, both residents of Williamsburg, were arrested by Central Office detectives yesterday on a charge of perjury and conspiracy. It appears that a short time ago the accused induced their aunt, a Mrs. Bridget Reilly, aged seventy years, to give them \$5,000 which she had accumulated during many years of McLean, of Baltimore, upon the promise that they would give her a home for life. After ilviug with them for a few weeks, they had her removed and confined in the Flatbush Insane Asylum, and later, upon an affidavit that she had no visible means of support, they had her removed to the Long Island Almshonse as a vagrant. The unfortunate lady was traced and discovered by a Mrs. Patchen, with whom she formerly lived, and was by her taken care of. The prisoners declined to make any statement. They will be arraigned in the Court of General Sessions at once.

Chicago, Oct. 21-J. J. Merrill and Frank Fuller, both from Boston, engaged in a game of pool, and, under the influence of several drinks, became quarrelsome and adjourned to the alley to settle their difficulties according to the manly art. Both are athletic young men and have taken the fuil course of physical exercise at an eastern college. Fuller was knocked out and received a broken nose and thumb. The fight was a fair one and no rough and tumble affair, and, when one man was knocked down, the other waited for him to rise before renewing hostilities. After the fight had lasted some minutes, ten policemen stepped up, and, remarking that it "was a beautiful mill," marched Merrlll off to the station and Fuller to the hospital. He was committed to jail, where he remained for several weeks. He was finally released on habeas corpus, and subsequently brought suit against the ex-Sergeant-at-Arms for damages. In the first suit the jury gave him a verdict for \$100,000, which verdict was set aside by Judge McArthur on the ground that excessive damages had been awarded. Since that time Kilbourne has amended his bill and the amount of damages now claimed is \$500,000. Mr. Kilbourne's counsel ls Senator Voorhees, Gen. eral N. L. Jeffries, Hon. Charles A. MARINETTE, Wls., Oct. 29.-The scandal of the day here is the alleged elopement of reasury Department."

W. N. Gray, manager of T. A. Hay's jewelry establishment, and Miss Deil Warren, a school teacher. The young woman, who is a niece of Mr. Gray's wife, was an lumate of the Gray household. A week ago Gray kissed his wife and children good bye, and bidding the woman Warren adieu, started, as he claimed, for Milwaukee to buy goods for his house, saying that he would be back in a few days. This was on Thursday. On the Friday following Miss Warren, after being down town, entered the house apparently very much agitated and informed Mrs. Gray that she had received a telegram stating that her, Miss Warren's, futher, fiving at Whitewater in this State, was very ill, and that her presence at his sick bed-side was desired, and that it was her intention to start for home that evening. Not until Saturday did the situation of affairs dawn on Mrs. Gray, when she telegraphed to Milwauke and Whitewater and found the trnants were net there.

The Epps Poisoning Case.

HUNTINGTON, Ind., Oct. 25,-The court room has been crowded day after day, listening to evidence in the case of Chariotte Epps, charged with poisoning her husband. The State rested its case and the defense has been commenced. It is admitted on all sides that the State has made a very strong case, proving that the woman' bought arsenle; that the symptoms of Epps' illness were of poisoning, and that arsenic was afterward found in the liver of the deceased. It will require much evidence to rebut the case made out by the State.

Humored Cabinet Changes, WASHIMITON, Oct. 21 -The air is full of rumors regarding changes in the Cabinet. It is stated on high authority that after the November elections Secretary Folger will retire from the Treasury and engage in business lu New York as the head of a new financial exchange. Attorney General Brewster will, it is said, also resign, and resume the practice of law in Philadelphia. MR. HOWARD VINCENT, the English Director of Criminal Investigation, places the direct cost of crime in England, Wales and Scotland at \$30,000,000. Over 74,000 persons are maintained for the prevention, detection and punishment of crime and control of criminals. But he points ont that inasmuch as \$25,657 persons (being nearly 1 in 36 of the population) were either apprehended, proceeded against, or cited, neither the criminal staff nor the cost could be deemed excessive. Of this enormous number but 94.-867 were arrested for offences against the person, and 122,761 for those against property. Mr. Vincent is a strunch upholder of capital punishment. He helieves that it is due to the certainty of this being inflicted that London had far fewer capital crimes than Paris, Berlin and Vienna. In Great Britain about fifty per cent. of those sentenced to death are executed, in France less than forty-six per cent., in Austria about two per cent. and in Germany only one-fifth per cent. He firmly believes floggling to be the best deterrent to crimes of personal violence.

The first public action since the Sapreme Court decided against the constitutionality of the civil rights law is that taken by Senator Brown, of Georgia, as President of the State Road of Georgia and head of the Georgia syndicate. He has unnounced that the policy he intends to pursue in respect to persons of both races traveling on the Western and Atlantic Railroad is to provide separate cars for the whites and blacks, with as comfortable accommodation for the colored people paying the same price as that provided for the white. But while making this arrangement he states that he will be more enresui than ever to see that the colored people have their full rights on the trains. The conductors will be ordered neither to permit white people to intrude upon colored nor the latter upon the white. In all other respects they are to be treated nlike. In the States East of the Potomac, and probably also in Virginia under the Mahone rule, the intermixing of while and colored people on the trains will, it is to be presumed, be permitted as usual. East of Maryland the colored people form so small a sprinkling of passengers that it would entail a heavy expense upon companies to run separate cars for their exclusive use, and even in Maryit is just to say that the colored people as a rule have shown themselves to be so well behaved that the whites have no just rause to complain of them. Long before the Supreme Court decision was unnounced the relations between the two races were being quietly adjusted by inntual though tacit consent. It was a law that had been ignored on both sides, and the only effect of its remaining on the statute book would have been to encourage vexatious litigation.

She advertised for young ledies to learn the system, charging a fee and promising her pupils remunerative employment when they should have become proficient. She has now been arrested on a telegram from Chief of Police Tilton, of Easton, Pa., saying she was wanted in that city for obtaining money and goods under false pretense and defrauding hotel keepers. The woman wanted in Easton is Mrs. J. C. Goodwin, but, as the description and method of working confidence games are identical. there seems to be little doubt that Mrs. Goodwin and Mms. The walls which have stood since the crusades, were thrown down, the ancient aqueduct was destroyed, and mosques and churches ruined. The people are panie-stricken, and the town is temporarily almost described. The inhabitants are camping on the frontier. It is said that in some of the smaller towns the loss of life has been very heavy. The Aegean sea, was agitated in many places. The shocks have been felt in Greece, and, at Capuwooila alone, 170 per sons are reported as having been hurt.

THE attention of the Chicago paper which said a short time ago "Kentucky has no use for negroes except to hang them," is called to the fact that the people of Maysville have contributed enough money to build six houses for some deserving eolored people, who lately lost their dwellings by fire, and that the dwellings are now being put up.

Turn work on Hiuutington's "river road" is progressing slowly, but surely, and an early completion of this important line may be confidently anticipated. The only apparent drawback to the acknowledged advantage of this road to the interests of Maysville is the apprehended injury to the value of property on our river front. This apprehension, however, is wholly groundless. The road will be built upon trestles of considerable height, and will be in effect, limits and the lines:

Hon. J. D. Kehoe, Frankfort, Ky.—Dear Sir:
I have had an idea about tree folls on furn-pikes in Mason county that I have talked our best schools. The sight of so many hogs in the streets impressed them so with the want of thrift and neatness in our citizens that one of them returned home taking his child with him, and the other, though leaving his little one did so reluctantly. This item, which is literally true, furnishes some good food for reflection to the people who wish well to the town where they live.

The following is from the Lexington press of the 26th Inst.: The following young ladies and gentlemen, of Maysville, Ky., were at the Phaenix Hotel, yesterday, en route to the Louisville Exposition: Misses Manne Lee Wood, Mary Lizzle Power, Judith Keith, Julia Wood Chloe Power, Bettie Adamson, Bessie Morgan, Jennie Kirk, and Messrs. W. L. Hall, Wm. Cunningham, Harry S. Wood, Henry Norris and Ollle Richart, of Sharpsburg. The young ladies are undoubtedly the most beautiful who have attended the exposition, and if a premium had been offered for the beautiful, these young ladies would have to draw for it. The young gentlemen are among the most enterprising young business men of Maysville. The Press wlshes the party a joyous visit,

RAILROAD ACCIDENT.

Criminal Carclesanesa Causes a Fatal Accident.

CHICAGO, Oct. 29.—A report just reaches here that a heavily loaded passenger train on the Pan Handle road coliided with a Michigan Central freight at the Grand Trunk crossing near Dyer, Ind., about forty miles from this city. The brakeman of the freight, named Kellogg, a target tender, and the engineer and fireman of the passenger train are reported killed. The target tender is buried under the debris and burned to a crisp. Other casualties are probable. The railroad company have, however, control of the telegraph facilities to the place and refuse to make the slightest statement. The accident resulted from gross neglect of the rule that all trains must stop 800 yards before the crossings. The target tender was asleep in his shanty beside the track when the passenger engine crashed into the shanty, setting it on fire. The man was burned to a crisp in his bed. John Keliogg, a freight brakeman, was also killed. The Pun Handle engineer Norris was crushed to death, and the fireman, name unknown, living in Chicago, was seriously injured. Both engines and a number of cars were wrecked. No passengers

tack as those affecting the throat and lungs : none so trifled with by the majority of sufferers. The ordinary eough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all eases without delay.

A Terrible Cough Cured.

"In 1857; I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried AYER'S GHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now 62 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved me. HORACE FAIRBBOTHER."

"While in the country last winter my little boy, three years old, was taken ili with croup; It seemed as if he would die from strangulation. One of the family suggested the use of AYER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than haif an hour the little patient was breathing easily. The doctorsaid that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours,
